## Hy-Refill BOX MINI

The automated controlling system for refills of the H2Planet's metal-hydride cartridges for your best long-term energy storage yet.

Thanks to the rapid and intuitive interface, it takes just few seconds to install, enabling the automatic management of every H2Planet Hy-PEM XP electrolyzers and refills of compatible MyH2® and MyH2® SLIM metal hydrides cartridges.

The hydrogen long-term energy storage has never been so easy, safe and reliable.

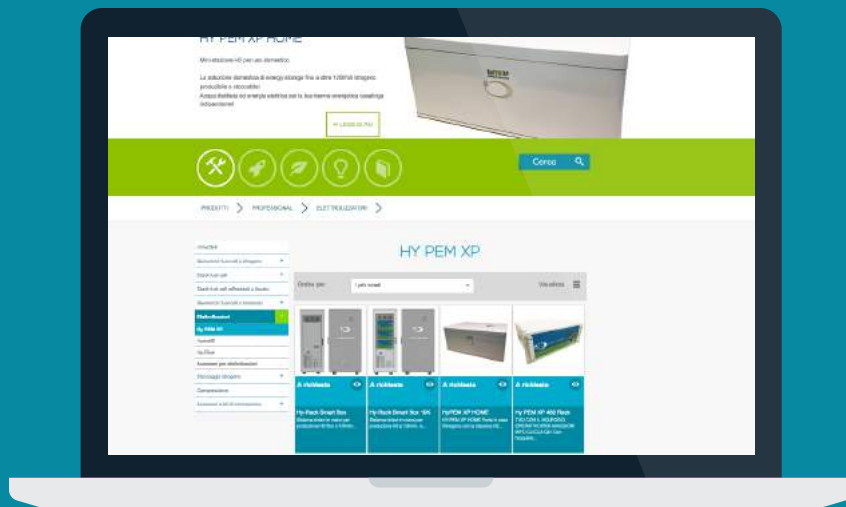

Connect your MyH2® or MyH2® SLIM hydrogen cartridges for the energy storage.

Once powered, the system will automatically and completely fill cartridges up by storing energy in a long term and reliable way!

Transfer the energy to all your H2planet devices, GreenBox portable generators, GreenHub FLUO domestic generators, or fuel-cell stack on vehicles or bikes as range extender or main powertrain feed.
